Dear Andrew

Thank you for your Written Question asking how the Welsh Government is providing support for robotic assisted surgery to become more prevalent in the Welsh NHS.

The Welsh Government is part funding a national robotic assisted-surgery programme. This has provided for additional robotic equipment to be introduced in Wales and to expand robotic assisted surgery to colorectal and gynaecological cancers. This is in addition to the pre-existing provision in south Wales for robotic assisted laparoscopic prostatectomy.

Yours sincerely,

Eluned Morgan AS/MS
